UNITED KINGDOM							
London Docklands North	9,170m ² Host to the London Internet Exchange (LINX)	Up to 2kW per sq metre (n + n redundancy)	Air conditioning (n + 1 redundancy)	2 stage fire detection system.	Access to over 400 carriers, ISP's and ASP's	24/7 on site security presence. Full access monitoring.	
London Docklands East	5,200m ² Host to the London Internet Exchange (LINX)	Up to 2kW per sq metre (n + n redundancy)	Air conditioning (n + 1 redundancy)	2 stage fire detection system.	Access to over 400 carriers, ISP's and ASP's	24/7 on site security presence. Full access monitoring.	
London Docklands West	4,700m ² Host to the London Internet Exchange (LINX)	n + n redundancy with direct access to the National Grid.	Air conditioning (n + 2 redundancy)	2 stage fire detection system.	Access to over 400 carriers, ISP's and ASP's. Free inter carrier connection via 'Meet Me' room access.	24/7 on site security presence. Full access monitoring.	
London Metro	520m ²	Up to 2kW per sq metre (n + 1 redundancy)	Air conditioning (n + 2 redundancy)	FM200 Gas cooling system	Carrier Neutral with connection available to numerous carriers and ISP's.	Proximity Card Reader. Access Control, Video Surveillance.	
FRANCE							
Paris Voltaire	7,000m ² Fully managed recovery services	0.5kVA (n + 2) per square metre	Air conditioning (n + 1 redundancy)	FM200 Gas cooling system	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring.	
Paris Jeûneurs	1,000m ² Fully managed recovery services	1kVA (n + 2) per square metre	Air conditioning (550kW redundancy)	FM200 Gas cooling system	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring.	
Paris Magny-les-Hameaux	2,220m ² Fully managed recovery services	Up to 6kVA (n + 1) per square metre	Air conditioning (n + 2 redundancy)	Automatic Nitrogen based system	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring.	
GERMANY							
Frankfurt	25,000m ²	Up to 8kW per sq metre (n + 1)	Air conditioning (n + 1 redundancy)	2 stage fire detection system.	Carrier Neutral with connection available to numerous carriers and ISP's including the German Internet Exchange (DE-CIX).	24/7 on site security presence. Full access monitoring with Biometric screening	
RUSSIA							
Moscow	6,200m ²	Standard power at 4kW per rack (n + 1)	Air conditioning (n + 1 redundancy)	NOVEC 1230 under floor and over head system	Carrier Neutral with access to key network operators including Orange, Mastertel, Beeline, Megafon and KDDI.	24/7 on site security presence. Full access monitoring.	
TURKEY							
Istanbul	3,870m ²	Up to 4.8kW to cabinet (n + 1)	Air conditioning (n + 1 redundancy)	2 stage fire detection system.	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring.	
SOUTH AFRICA							
Johannesburg	3,500m ²	Up to 3.3kW per rack (n + 1)	Air conditioning (n + 1 redundancy)	FM200 Gas system	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring with Biometric screening.	
Cape Town	450m ²	Up to 2.2kW per rack (n + 1)	Air conditioning (n + 1 redundancy)	FM200 Gas system	Carrier Neutral with connection available to numerous carriers and ISP's. Submarine cable also available.	24/7 on site security presence. Full access monitoring with Biometric screening.

USA							
Los Angeles	1,000m ² Host to the Los Angeles International Internet Exchange (LAIX).	UPS (n + 1)	Air conditioning (n + 1 redundancy)	Dry Sprinkler	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring.	
New York Teleport	7,200m ²	UPS (3 + 1)	Air conditioning (n + 30% redundancy)	2 stage fire detection system.	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring.	
New York Broadway Centre	3,600m ² Host to the New York International Internet Exchange (NYIIX).	UPS (n + 1)	Air conditioning (n + 1 redundancy)	Dry Sprinkler	Carrier Neutral with connection available to over 70 carriers and ISP's.	24/7 on site security presence. Full access monitoring.	
New York Chelsea	5,574m ² NYIIX Extension	Up to 5kVA per rack (n + 2)	Air conditioning (n + 1 redundancy) 450mm raised floor throughout.	2 stage fire detection system.	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring with Biometric screening.	
CHINA							
Beijing	25,000m ²	Up to 4kVA per rack (n + 1)	Air conditioning (n + 1 redundancy)	IG541 Inergen-gas fire suppression	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring.	
Shanghai	3,360m ²	Up to 3kVA per rack (n + 1)	Air Conditioning (n + 1 redundancy)	IG541 Inergen-gas fire suppression	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring. Triple dial key locks at rack.	
HONG KONG							
Hong Kong CCC	34,000m ²	Standard power to cabinet at 220V, 10 x 13A Sockets	Air conditioning (n + 1 redundancy)	2 stage fire detection system.	Carrier Neutral with connection available to numerous carriers and ISP's. Dual cable lead in. Meet me room connectivity.	24/7 on site security presence. Full access monitoring with Biometric screening.	
VIETNAM							
Hanoi	1,900m ²	Up to 5kVA per rack (n + 1)	Air conditioning (n + 1 redundancy)	2 stage fire detection system.	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring with Biometric screening.	
SOUTH KOREA							
Seoul	1,140m ²	Up to 6.6kVA per rack (5,000 kVA redundancy)	Air conditioning (n + 1 redundancy)	HALON gas fire suppression.	Connectivity to all major Korean carriers.	24/7 on site security presence. Full access monitoring with Biometric screening.	
SINGAPORE							
Singapore	1,800m ²	Up to 5kVA per rack (n + 1)	Air conditioning (n + 2 redundancy)	2 stage fire detection system.	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring with Biometric screening.	
JAPAN							
Japan Tokyo Koto	4,500m ²	Up to 4.2kVA per rack (n + 1)	Air conditioning (n + 1 redundancy)	Automatic Nitrogen based system.	Carrier Neutral with connection available to numerous carriers and ISP's.	24/7 on site security presence. Full access monitoring with Biometric screening.
